SUMMARY

3rd year Bachelor's student in Computer Networks and Telecommunications at ISCAE, Nouakchott, and a Full Stack Developer with hands-on experience in network architecture design and development of modern web and mobile applications. Motivated, detail-oriented, and results-driven.

TECHNICAL SKILLS

React / TypeScript / JavaScript	Cisco Packet Tracer	Git / GitHub / Linux
Node.js / Express / Laravel / PHP	VLANs / OSPF / DHCP / DNS	Flutter / Dart / .NET MAUI
MySQL / Supabase / REST API	TCP/IP / Routing / Trunking 802.1Q	Tailwind CSS / Bootstrap / Vite

PROFESSIONAL EXPERIENCE

Network and Telecommunications Intern — Chinguitel July – September 2025

Network and Telecommunications Department — Nouakchott, Mauritania

- Designed and simulated a **Three-Tier** network architecture in Cisco Packet Tracer covering **4 departments** (Management, Technical, Finance, IT)
- Segmented the network into **4 distinct VLANs**, configured inter-VLAN routing and deployed **OSPF** across **3 routers**
- Deployed internal network services: DHCP across **4 subnets**, DNS, Intranet Web server and FTP
- Produced comprehensive technical documentation: network diagrams, routing tables and IP addressing plan

EDUCATION

Bachelor's Degree in Computer Networks and Telecommunications — ISCAE, Nouakchott Oct. 2023 – Present

Specialization: computer networks, telecommunications and full stack web development

Baccalaureate Series C — Mathematics and Physical Sciences 2023

Excellence 1 High School — Nouakchott, Mauritania

PROJECTS

ISCAE Connect — Web Application (Academic) github.com/medghilly/iscae-connect

- Attendance management system for ISCAE — TypeScript, React, Express, Node.js · Real-time tracking, automatic notifications

Mawashi App — Mobile Application (Team of 3) github.com/medghilly/mawashi-app

- Mobile platform connecting livestock breeders and buyers in Mauritania — Flutter, Dart, Supabase · Real-time messaging

Krilywte — Web Platform (Personal) krilywete.onrender.com · github.com/medghilly/krilywete

- Car booking platform in Mauritania — Laravel, MySQL, Tailwind CSS · Payments and multi-user administration

Ajir Challenge 2025 — Nuit de l'Informatique (Team) ajir-xi.vercel.app

- Interactive web application built as a team — React, Tailwind CSS, Supabase · Real-time backend

ADDITIONAL INFORMATION

Languages: Arabic (native), French (fluent), English (intermediate)

Availability: Open to internships, apprenticeships and remote or on-site missions
